Comment : Morse Code, or CW, is and has been an intregal part of the institution of Amateur Radio for all of its proud history. The Citizen's Band is available for those who have no interest in the technical or historical aspects of radio and who only want to communicate with family or freinds, much like using a telephone. Morse Code is not difficult for most everyone to learn. Currently when one amateur radio operator meets another he can be assured that the person on the other end of the communication has taken the time and made the effort to learn about the "art" of "ham radio".
